Power Up The Destin Seafood Festival

The Destin Seafood Festival is seeking “Power Partners” to assist financially in the installation of new power poles along the Festival’s linear venue on the Destin Harbor. Festival organizers are asking for twenty companies or individuals to donate \$1,000 each and become part of the Power 20.

The good news about this \$20,000 investment is it is a one - time expense and will become a permanent part of the power structure along the Harbor, saving the cost of expensive generators each year. As well, this will enable the Destin Seafood Festival to continue in its green environmental efforts as the new power poles will be hooked into Gulf Power’s grid system.

Power Partners members will permanently have their names (or business names) on the power poles,

Ten (10)VIP tickets to this year’s Destin Seafood Festival, festival t-shirts and posters.

For further information or media inquiries, please email jamiemarie@cox.net.

The 33rd Annual Destin Seafood Festival along the Destin Harbor is free this year and will run from September 30 through October 2. Activities will abound with artists on display, extraordinary local food, Gulf seafood cooking demonstrations by well-known area chefs at the Fresh From Florida sponsored outdoor demonstration kitchen, kid’s activities, award-winning Nashville singer/songwriters and great local musicians playing live along the Harbor for all-day entertainment.

The event is produced by The Destin Charter Boat Association, The Florida Restaurant and Lodging Association, and Emerald Coast Tourism and Visitors Bureau.

For further information on vendor or site of festival call 850-218-0232, or visit on-line at www.DestinSeafoodFestival.org.
